## Synopsis

Subaru Natsuki was just trying to get to the convenience store but wound up summoned to another world. He encounters the usual things--life-threatening situations, silver haired beauties, cat fairies--you know, normal stuff. All that would be bad enough, but he's also gained the most inconvenient magical ability of all--time travel, but he's got to die to use it. How do you repay someone who saved your life when all you can do is die?

## Customer Reviews

The drawings are okay, they'd be perfect if i hadn't seen the Anime to begin with. Although the difference in character design and feel between the Manga and Anime are minimal, I feel strongly for the one in the Anime.Great story anyways!

As for content this show is great, just sad the comic had very little material aha I expected at least 200 pages worth of content :( amazing story though adapting from the novel :)

Condition:It arrived in perfect condition. No damage, smells brand new, no paper folds or anything that typically happens during shipment.Contents:After reading the Light Novel and this manga, I can say that the anime truly did a great job with their adaptation. The art is different from the anime or Light Novel but the quality is definitely there. The cover is pretty lax as opposed to what happened in volume 1, which I appreciate as it invites the readers, unknowingly venturing in a dark story clad

in beautiful characters and cute moments xD

Already read past this portion online but this manga is just too good not to have a physical copy!

I saw the anime and had to support it in some way! The art is slightly different but it's not bad. Only wish it had more chapters. Other than that it's a must have for fans!

What else do you want? It's so good.
