Customer Reviews

I bought this book for a friend because, although he is a very nice person, he speeds everywhere he goes; tailgates; is always braking; uses his acceleration and brake pedals as if they are on/off switches; zigzags through traffic (and claims to be a "safe zigzagger"); goes up to STOP signs at higher than lower speeds; rolls through STOP signs; and much much more. I could go on and on. The most disconcerting thing about it is that he thinks that safe drivers are slow and hazardous drivers; and that HE is the safe driver. It appears, too, that most of the drivers in my area, think and drive the same way he does!! I love this book. It is short and simple but says more than a thousand pages could say. I am going to post in my neighborhood website, that everyone should read this book. We really REALLY need it here. One thing though: Mr. Hamel, can you please PLEASE have this book translated into Spanish so I can share with the 85-90% population of my neighbors? I am very surprised that I am the only reviewer but then again, I can just go out for a drive to the market,

bank, or to drop the kids off at school and I can see why I'm the only one.
