2010 HCPCS Level II Standard Edition, 1e (Hcpcs Level II (Saunders))

Synopsis

Elsevier and the American Medical Association have partnered to co-publish this HCPCS Level II reference by Carol J. Buck! Providing the latest Healthcare Common Procedure Coding System (HCPCS) codes in an easy-to-use, spiral-bound, full-color format, 2010 HCPCS Level II Standard Edition helps you code quickly, accurately, and efficiently and optimize reimbursement. At-a-glance listing of all new, revised, and deleted codes for 2010 helps you quickly identify changes. Distinctive symbols help you quickly identify all new, revised, reinstated, and deleted codes. Drug code annotations help you quickly and easily identify brand name drugs as well as drugs that appear on the National Drug Class (NDC) directory and other Food and Drug Administration (FDA) approved drugs. Companion Evolve Resources website keeps you updated with the latest code changes. Affordable pricing provides unparalleled value at a reasonable cost. Updated Internet Only Manual (IOM) section provides essential information on carrier-specific and Medicare-specific regulations to ensure coding accuracy.

Customer Reviews

I purchased the spiral bound version of the 2010 Healthcare Common Procedure Coding System (HCPCS) Level II manual on December 12, 2010 it was on sale for the price of \$48.97 the regular price was \$99.95. It was one of the required manuals I had to buy because I was going to take a medical coding class at a community college. I used this 2010 HCPCS Level II manual frequently for

coding exercises I had to submit in class and received an excellent score due to this user friendly spiral bound, full color format on the Netter Anatomy artwork is very descriptive and easy to understand. This handy reference guide has helped me to find the HCPCS Level II codes quickly and code the online insurance claims accurately and to determine which codes are payable to the Hospital Outpatient Prospective Payment System. It has helped me to ensure proper payment and appropriate reimbursement. Durable Medical Equipment, prosthetics, orthotics, and supplies indicators has helped me to quickly identify supplies to report durable medical equipment to medical third-party payers. The Table of Drug Code annotations has helped me to quickly identify brand name drugs as well as drugs that appear on the National Drug Class directory and other FDA approved drugs. The Appendices show the latest CMS (Centers for Medicare and Medicaid Services), Physician Quality Reporting Initiative, National Allowable Rates, and National Correct Coding Initiative standards to ensure compliance with current coding regulations.

Being in the Medical Reimbursement field, purchasing the HCPCS manual was the best purchase I had made, It's easy to find codes are great. I would advise anyone who is in the medical coding field and needs the HCPCS manual or any medical manuals to get it through ,the prices are fantastic.

This is an easy to use book. The type is large enough to easily read. Everything is arranged for easy use.

I am waltzing along taking a test and WHOA NELLY - There is no code J1090? Is that in another book? Is Carol messing with me? Why would they test me over the one code that isn't included? Now I am worried that many codes have been excluded. EEKS!

I ordered this book and i love it. Everything that i order, no matter what it is i always get it in a timely manner. I have received this book just in time to take my exam. It was a new book and when i received it, it was well wrapped so that it would not get damaged. It came to me in great condition. Thanks ! I will continue to order my books and all of my items from you. I am very pleased with this website.

This made for a great economical purchase as I needed this book to take my certification exam. The book is very helpful and informative.

Taking courses at an on-line college and we use e-books, I wanted the physical book to use as it is easier to get around in. This book is good for referencing for proper coding.

Great book!! This helped me get all the codes I needed to file the proper claims. This also helped with updating us on new codes we could use for things.
