The Anatomy Of Curiosity

Synopsis

The follow-up to the acclaimed novel *The Curiosities: A Collection of Stories* by Maggie Stiefvater, Tessa Gratton, and Brenna Yovanoff. In an unassuming corner of Brooklyn, a young woman learns to be ladylike, to love context, and to speak her mind from a very curious sort of tutor. In a faraway land convulsed by war, a young soldier hears the desert's curious hum as he disarms bombs with the person he doesn't know how to love. In a place so shriveled by drought that any drowning is a curiosity, a young writer tries again and again to tread water beneath the surface of a vast and unusual sea. Three new stories complete with commentary on the creative process from three acclaimed young adult authors working at the height of their powers.

In an old walk up in Brooklyn, a young woman is hired as a reader and companion for a strange older woman. What starts a job quickly turns into something much more important as Petra learns about context, ladylike behavior, and speaking her mind all while finding an unusual kind of friendship in "Ladylike" by Maggie Stiefvater. In a faraway land a young soldier works to disarm magical bombs left behind by rebels. The hum of the desert lulls him and the mysterious magician on his team enchants him, but sometimes loving something is hard until you know the truth about

yourself in "Desert Canticle" by Tessa Gratton. In a town where water is scarce, drowning is a rarity. There are a lot of ways to tell the you about the boy she found drowned in a half inch of water, but there's only one right story for Jane and the drowning place in "Drowning Variations" by Brenna Yovanoff. The Anatomy of Curiosity (2015) is the second anthology from authors (and critique partners) Tessa Gratton, Maggie Stiefvater and Brenna Yovanoff. In this followup to The Curiosities the focus is more squarely on the mechanics of writing and how ideas can become stories. For this collection each author wrote a new novella and details their writing process in a preface and margin comments. Between each story all three authors also discuss how they tackled finding critique partners, revision, and _____. Each author frames their margin comments and notes in the context of their focus when writing.
