The Private Lives Of The Sun Signs

Synopsis

For more than twenty years, astrologer Katharine Merlin has penned monthly horoscopes for Town&Country magazine, producing once of the magazine's most widely-read and beloved columns and now the most visited site on the Hearst corporate website for each of its 16 magazines. In *The Private Lives of the Sun Signs*, Merlin presents in-depth analyses of each of the twelve zodiac signs - from Aries to Pisces - illustrating their unique characteristics with astonishing accuracy. Drawing upon wisdom gleaned over the course of her forty-year career in astrology, Merlin provides invaluable insight into the idiosyncrasies of each sign - the way they process emotions, communicate, find motivation, relate to others, and more. Through Merlin's illuminating descriptions, we come to understand our inner selves more deeply - the way we think, work, love, what makes us tick - and learn to harness the potential of our own unique gifts. And, by familiarising ourselves with the signs of friends and partners, we develop tolerance and appreciation for their distinctive qualities, finding ways that different signs can complement each other and allowing our relationships to blossom. Full of illuminating anecdotes, *The Private Lives of the Sun Signs* offers a fascinating and comprehensive look into the inner workings of the zodiac signs, proving that this ancient science continues to offer invaluable guidance to a contemporary audience.

This fresh new look at sun signs by Katharine Merlin is an enjoyable journey through the zodiac. Her sensitivity, insight, and depth speak to and through every sign as if she were living in the shoes of all, one sign at a time. Her writing is light and graceful, often with a touch of humor. By no means do I deny the value of the detailed individual chart, and books that speak directly to those details, but to

my mind, Merlin has managed to derive all the possible juice out of the good ol' sun signs.

A co-worker knowing I love astrology and anything related let me take a look at a new book she bought. It just so happened to be *The Private lives of the Sun Signs*. It took me only a few minutes into reading the first chapter that I knew I was buying it. I went on that day and purchased this wonderful book. Not only does it fit the sun signs of the zodiac but also entices to read more with the authors humor and relating to her friends and family. I really love the little areas of relationships with other signs too. The paragraph on how an Aries parent handles a Pisces child was very touching and an eye opener. Can't control the little fishy got to let him be his emotional self!!

Katharine Merlin's book is a "must read" for people interested in learning about their own and others' sun signs. It is clear, concise and full of invaluable insights. Katharine Merlin is a great teacher! From reading her book, I developed a greater understanding of the characteristics of each of the sun signs, increased self-awareness and gained new perspectives about the behavioral preferences and patterns of other people. I highly recommend *The Private Lives of Sun Signs*..it is enjoyable to read, beautiful to look at, and a wonderful gift for anyone interested in learning from an expert.

As a longtime reader of Katharine Merlin's astrology column in *Town and Country*, I am always amazed at how accurate those few sentences in her monthly readings are for me (also a Libra like Ms. Merlin). In her new book, *The Private Lives of the Sun Signs*, she has the chance to go into considerable depth on the characteristics of each sign and their relationships with other signs. Her insights are truly remarkable, and are helping me to understand more about myself and my interactions with others. Her style is quite engaging with matter-of-fact examples helping to bring her observations to life. I believe that this book is destined to become the definitive guide to the sun signs for this century!

The Private Lives of Sun Signs is a wonderful book on astrology. Beautifully written and so interesting that I found myself reading about signs that were not even connected to my life. Katharine Merlin has great insight and clearly is a gifted astrologer. I always enjoyed reading her horoscopes from *Town and Country* and when I found out that she had a book on astrology, I just had to get it. You won't be disappointed.

The Private Lives of the Sun Signs is an intelligent and insightful book about the sun signs of the zodiac. I gained valuable self-knowledge and a better understanding of the personalities of family and friends. The book taught me how to better accept myself and others. Katharine Merlin's writing is clear and compelling. Her book has a charm and fluidity that makes this a pleasurable read. The illustrations are brilliant. In fact, the whole feel of the book is classy, thoughtful, and compelling. I'd recommend this book to anyone looking for an opportunity to learn about human nature and grow.

It's a joy to read this book by Ms Merlin. Every time I pick it up I find funny anecdotes and spookily real insight about my friends and family. A must read for anyone interested in how the stars and planets affect our natures and everyday lives.

Great book and it was cheaper here than at Amazon. I gave it to my sister for Christmas and I didn't stop reading it until I gave it to her (never wrapped it). I love it.
