# Louisiana Birds: A Folding Pocket Guide To Familiar Species (Pocket Naturalist Guide Series)

## Synopsis

Louisiana is the permanent or migratory home of 471 species of birds, including the state bird, the brown pelican. This beautifully illustrated guide highlights over 140 familiar and unique species and includes a map featuring prominent bird-viewing areas. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and is ideal for field use by visitors and residents alike. Made in the USA.

## Customer Reviews

This is nothing but a very abbreviated fold out pamphlet which is of no practical use. Just some tiny pictures with the the names of the birds, no helpful hints about identification. this is a waste of \$\$.

The second book we bought, all about Louisiana birds WAS helpful.

Good little laminated brochure type guide. Not comprehensive by any means, but clear pictures and accurate descriptions help me and my kids identify the common birds we see in our yard, and when we are out and about.

We are not bird experts, but do have a "beginners" interest in bird identification. We are new to Louisiana, and my 3-year-old son and I love finding the birds we've seen at the park in this little guide.

GREAT and very helpful "carry along" quick reference.
