The Female Of The Species

Synopsis

Edgar Award-winning author Mindy McGinnis delivers a dark and riveting contemporary YA novel that blends the unflinching honesty of Laurie R. King's *Speak* with the relentless pacing and alternating perspectives of *Gone Girl*. A stunning, unforgettable page-turner. Alex Craft knows how to kill someone. And she doesn't feel bad about it. Three years ago, when her older sister, Anna, was murdered and the killer walked free, Alex uncaged the language she knows best—the language of violence. While her own crime goes unpunished, Alex knows she can't be trusted among other people. Not with Jack, the star athlete who wants to really know her but still feels guilty over the role he played the night Anna's body was discovered. And not with Peekay, the preacher's kid with a defiant streak who befriends Alex while they volunteer at an animal shelter. Not anyone. As their senior year unfolds, Alex's darker nature breaks out, setting these three teens on a collision course that will change their lives forever.
